

FPXT - Fidelux Bluetooth Controlled Tunable White LED Panel Series

Product Description

Introducing the Fidelux FPXT - Bluetooth controlled tunable white LED flat panel controlled by a Hand-held or Wireless wall mount remote control panel. FPXT gives you the ability to change kelvin color and the power with the push of a button. This product also offers a multifunction wireless remote panel that controls 255 fixtures per groups. The FPXT offers the right size, color and power for every situation.

Features & Benefits

- Multiple color & power options with-hand- Held or Wall Remote
- Multiple mounting options
- Human Circadian levels can be obtained
- 1x4, 2x2, & 2x4 size options
- Edge lit
- 5Year Provided option for 10 year Available , Consult Customer Service

Applications

- Supermarkets
- Shopping Malls
- Hospital general lighting, Patient Rooms
- Commercial Office Buildings
- Factories
- Studios

Mounting Options

- Standard Recessed mounting for grid mount drop ceilings
- Suspension cables are included in all fixtures (Hooks and 3ft Aircraft Cables)
- Surface mounting kit for panel to be installed on surface of ceiling or wall
- Drywall mounting kit for cutting in panels into drywall surfaces (old work)

Regulatory & Voluntary Qualifications

- UL, DLC certified as Tunable „ Integral controls

Bluetooth Control Smart Phone App (iOS & Android)

Bluetooth Remote Control

Bluetooth Control Wall Switch

Bluetooth Control Facts

- Remote control & Wall Switch control to fixture distance: 30ft
- Smart phone remote control to fixture distance: 30ft
- Group distance: 80ft radius M
- Max fixture qty. in the group: 255
- Fixture to fixture distance: 25ft

Performance Summary

Efficacy up to: 115 l/pw

CRI Ranges : 80- 84

CCT Tuning Range: 2700K - 5000K

Input Voltage: 100-277vac

Control: Bluetooth Hand Held Remote, Wireless Wall Remote

Watts: 1x4 max 40W, 2x2 max 40W, 2x4 max 50W

Lumens up to: 6650

Operating Temp: -30°C ~ 40°C

Operating Frequency: 50/60Hz

Rated Power Factor: >0.95

Dimension: 11.9" x 47.8" / 23.8" x 23.8" / 23.8" x 47.8"

FPXT Series Installation Instructions

For all FPX Series Mounting (Configurable and Tunable)

WARNING:

To avoid the risk of fire, or electric shock this product should be installed, inspected, and maintained by a qualified electrician only. Installation should be completed by an individual familiar with the construction and operation of the luminaire. Installation of luminaire must be in accordance with national and local building and electrical codes.

Safety Warning: To avoid electric shock: Be certain electrical power is OFF before and during installation and maintenance. Luminaire must be supplied by a wiring system with an equipment grounding conductor.

To avoid burning hands: Make sure lens and housing are cool when performing maintenance.

To avoid product degradation: Make sure the wire supply voltage is the same as the luminaire supply. Use proper supply wiring as specified on the luminaire nameplate. Avoid use in environments containing sulfur, chlorine, or other halides, methyl acetate or ethyl acetate, polyisocyanates, glycol ether, formaldehyde, or butane.

Notes: Instructions do not cover all details and all possible product configurations. Do not restrict luminaire ventilation. Ensure LED luminaire is not covered with material that will prevent convection or conduction cooling. Ensure LED luminaire has the correct polarity before installation. Avoid exposing wiring to metal edges and sharp objects.

Maintenance: Perform visual, electrical, and mechanical inspections on a regular basis. The environment and frequency of use should determine this. However it is recommended that checks be made at least once a year. Electrically check to make sure that all connections are clean and tight. Mechanically check that all parts are properly assembled.
