

WARNING

- Risk of shock and fire. Disconnect power before installation.
- Installation should only be performed by a certified electrician.
- FSTRS fixtures are for indoor dry/damp locations only.
- If units exhibit any nonstandard behavior, disconnect power and contact Fidelux.
- Ensure proper operation of each fixture when installed.

SURFACE MOUNTING

- 1. Ensure line power is off.
- 2. Remove lens.
- 3. Mount and secure housing to surface (Diagram #s 1 and 2).
- 4. Carefully hang gear tray from safety tethers.
- 5. Ensure line power is off. Connect to line power, confirming that all wiring and power connection is in accordance with applicable codes (Diagram #s 3 and 4).
- 6. Reconnect gear tray to housing (See diagram #s 5).
- 7. Reattach lens (See diagram #6).
- 8. Apply power and check for correct fixture operation.
