FRHBN Series Installation Instructions
For all FRHBN Series Mounting

⚠⚡ WARNING:

- Read through this manual before installation.
- Handle product with care.
- The product must be grounded.
- This product must be installed and maintained by certified electrician.
- Consult with the manufacturer before maintenance.
- Turn OFF the power before installation and maintenance.
- Make sure the products are securely installed.
- The housing might become hot after operation.
- Primary use: high-bay luminaires for commercial and industrial buildings.
- Make sure the construction is strong enough to support the products.
- The product will automatically shut down once the temperature goes too high; and will automatically turn on once it cools down.
- The external flexible cable or cord of this luminaire cannot be replaced; if the cord is damaged, the luminaire shall be destroyed.
Suspension Chain Mount

Step 1: Insert the o-hook into lamp body and screw up by rotating clockwise. Connect the carabiner with o-hook.

Step 2: Drill in ceiling surface according to the hole location of suspension parts.

**Step 3:** Fix the suspension parts onto ceiling surface and tighten the screws.

Step 4: Hang the safety rope onto ceiling surface and finish the installation.
