

FRHBNSF**FOOD GRADE
HIGHBAY**

Fidelux FRHBNSF Food Grade Highbay luminaires provide high efficiency and energy savings in a rugged yet contemporary NSF-Certified IP66 / IP69K die cast aluminum housing. The FRHBNSF series is primarily designed to operate in environments for food handling, food processing, and food preparation, as well as other applications requiring direct, high-pressure washdowns.

With light output of up to 150 lm/W, the FRHBNSF Series also offers a wide operating temperature range, corrosion-resistant tempered glass lenses, and a option for versatile motion and light sensing. Microwave motion / ambient sensing can be field programed with handheld remote.

- Corrosion-resistant tempered glass lens
- Energy-efficient performance up to 150 lm/W
- Die-cast aluminum housing

- Durable powder coated white finish
- >60,000 hour operating life (L70)
- Sensing and control options

HOUSING Corrosion resistant IP66 / IP69K die-cast aluminum housing with powder coated white finish.

LENS Corrosion resistant tempered glass

LEDS Beam spread 120° standard. LM-80 tested. CRI >80. Operating life >60,000 hours (L70).

ELECTRICAL 120-277V standard with 277-340V option; 50/60 Hz. Power factor 0.95. THD <10%. Drive current 2400 mA. 10KV Surge protection standard.

CONTROLS AND SENSORS 0-10V dimmable standard. Motion and ambient light sensor and remote control available.

TEMPERATURE The FRHBNSF series is designed to operate in temperatures of -40°F to 113°F (-40°C to 45°C).

ACCESS / WIRING Factory-installed SW3 IP67 wiring

connector included. Power (5') and dimming leads (1') factory installed. Direct wiring to leads or via Pendant Mount adapter PM or pendant+junction box PJB (IP66).

MOUNTING Hook (included), pendant via mounting adapter, and pendant+junction box. Tether secured to housing for ease of installation and safety.

WEIGHT 9.6 lbs

LISTINGS DLC Premium. UL Wet Location. IP65. IP69K. NSF.

WARRANTY 5 year limited warranty.

S2 12V Low Voltage Programmable Occupancy Sensor

The S2 Sensor provides occupancy and ambient light level sensing capabilities

Detection Pattern

S2RC Hand-held Remote

Features

- Motion / Light Sensor Control
- Scenes
- Detection Range
- Output Power: 0% to 100%, 5% Increments
- Daylight Threshold
- Hold Time
- Stand-by Period
- Stand-by Dimming Level
- Test Mode

The S2RC Hand-Held Remote provides easy and wireless sensor programming and testing

Sensor Operation and Configurability

S2 Sensors are designed to provide excellent performance out of the box. They are also highly programmable, allowing the user to adjust Detection Range, Daylight Threshold, Output Power - 0% to 100% in 5% Increments, and Hold Time, Stand-by Period, and Stand-by Dimming Level.

These features enable a dynamic, highly energy-efficient means to create a well-lit and safe environment throughout a very wide range of applications.

Factory Defaults

- Detection Range: 100%
- Output Power: 100%
- Daylight Threshold: Disabled
- Hold Time: 5 min
- Stand-by Period: 10 min
- Stand-by Dimming Level: 30%

Available Settings

- Detection Range: 100%, 75%, 50%, 25%
- Output Power: 0-100%; 5% increments
- Daylight Threshold (lux): Disabled, 2, 10, 30, 50, 80, 120
- Hold Time: 5s, 30s, 1m, 3m, 5m, 10m, 20m, 30m
- Stand-by Period: 0s, 10s, 30s, 1m, 5m, 10m, 30m, Infinite
- Stand-by Dimming Level: 0%, 10%, 30%, 50%

Customization

Settings can also be preset to your specifications by factory before delivery.

Please note your preferred preference when submitting the purchase order.
